

# Del Prado Boulevard

## Widening Project - Phase V

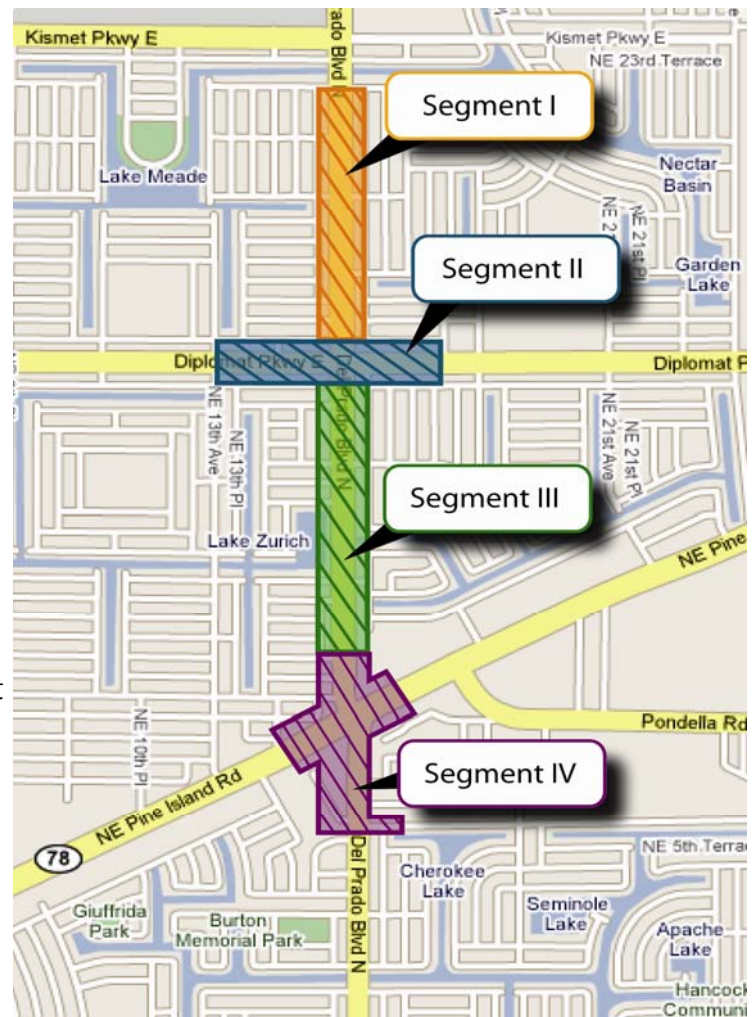

**Project Limits:** Del Prado Boulevard, from Pine Island Road to Kismet Parkway.

**Project Description:** Del Prado Boulevard road construction involves the widening of existing roadway from four to six lanes beginning just south of Pine Island Road to just south of Kismet Parkway.

In addition to the widening of Del Prado Boulevard, the widening of two bridges and the construction of three new bridges were completed in 2008.

Improvements to the roadway include landscaping, paved multi-use paths, street lighting, curbing and new traffic signals.

**Construction Schedule:** The project was designed to be built in four segments with an anticipated completion date of Spring 2011.

Segment I: from just south of Kismet Parkway to north of Diplomat Parkway - Ongoing

Segment II: intersection of Diplomat Parkway - Ongoing

Segment III: from south of Diplomat Parkway to just north of S.R. 78 / Pine Island Road - to begin early 2010

Segment IV: intersection of S.R. 78 / Pine Island Road - to begin early late 2010

**Construction Management:** Program Management and Construction Management services are being provided by Balfour Beatty Construction.

**Traffic Impacts:** Drivers, pedestrians, bicyclists, businesses and residents will be impacted by this project. Drivers are advised to obey posted speed limits and drive with **extreme caution** through the construction zone. Other roadway users should be aware of the construction, and pay attention to construction vehicles and activities.

**For More Information:** Please call Maricelle Venegas, Public Information Specialist at 239-707-9050 or visit the project web site at
